EDUCATION

BCA- Computer Applications
The New College (autonomous)

06/2019 - 06/2022   *Chennai*

PERSONAL PROJECTS

Personal portfolio website. (12/2022 - Present)
- Used Next.js to create a React - based application with server - side rendering and custom routing . I used styling techniques with Tailwind and used SMTP with netlify for seemless mail transfer
- Technologies Used: NextJs, Tailwind & Node.js
- Link- https://afrithshariff.me

Dyootify (01/2023 - 02/2023)
- Dyootify is a multi-platform music player based on React which is also an Android app, thanks to Capacitor.js users can install the app locally and stream the song on the go Link - https://dyootify.netlify.app

Al-Miraaj International (10/2022 - 11/2022)
- Almiraj.com was a great client to work with. I was able to help them create a stunning landing page that was designed to engage visitors and generate leads. the response to the landing page has been overwhelmingly positive.
